

28 Days to Prosperity Program

THE EIGHT ASPIRATIONS WEALTH CHECKLIST & BAGUA

By Kathryn Weber

Read the following checklist to see if you have all your wealth corners activated! The checklist contains all the items you need in each sector. Have a bathroom in one of these sectors? That's OK. Simply activate the corresponding corner in your main living area.

1) **The wealth of helpful people, mentors, travel.**

This is associated with the **northwest corner**. Add **earth objects**, such as a globe, flags, pictures of important people, deities, and metal or moving objects. Fans are wonderful activators in the northwest as are flowers because they are the yang expression of a plant. Airplanes and other travel symbols are another way to get you off the ground and headed somewhere exotic.

2) **The wealth of career prospects, business opportunities.**

This is the generating income sector of the north. **Adding water and water symbols** is an excellent way to stimulate business and career opportunities. **Large metal and moving objects** are also potent stimulators. Want extra opportunities? Add blue candles to this sector to give you an extra shot of opportunity!

3) **The wealth of wisdom, education, spirituality.**

Cultivating your mind and the ability to think clearly and make good decisions is a key area for the attainment of wealth. Enhance the **northeast corner** of your home with lights, **earth objects**, small stones, globes, lighted crystals and chandeliers.

4) **The wealth of family and good health.**

A happy family and good health often go together. This is the **east corner** or side of your house. Enhance this area with **wood objects**, large wooden pieces of furniture and plants. You can also enhance this portion of your home with **water**, aquariums and fountains to create smoother, more harmonious relationships and improved health.

5) **The wealth of material abundance and prosperity.**

This is the **southeast sector** and it applies to accumulated money, investments and abundance of resources. Adding water in this area is especially helpful when you want to accumulate financial reserves and see your investments flourish. Healthy green plants and flowers are wonderful activators for this sector.

6) **The wealth of a good name, recognition, and personal fame.**

For the **south sector** of your home and garden, be sure to get your share of the recognition you deserve by adding the **fire energy** of lights, candles, and bright colors. Flowers and plants are also a wonderful way to generate more recognition for yourself because their **wood energy** feeds the fire nature of the south corner. If you've been working hard to "make a name for yourself" then the south sector is the side of the house to enhance!

7) **The wealth of love, marriage, and marriage prospects.**

Having the opportunity to marry, fall in love, and meet the right people is associated with the southwest corner of the home. You can enhance these areas of your life by adding globes, mountains, crystals and lighting in this area. Gardens benefit by adding large stones and boulders to enhance your romantic life!

8) The wealth of creativity, children, and luck for children.

The **west corner** of the house is the area associated with luck of the descendants. **Metal energy** is the energy here that brings a spark of creativity to those working in artistic fields, jewelry, and for children. **Crystals and earth objects** are also enhancing. Probably one of the best activators for this sector is the humble windchime. Softly moving and tinkling in the wind, the windchime will help to move chi in this sector and enhance the luck of the children in the family and help to unstick creative blocks.
