### NEW MOON NOTICE

**New Moon in Aries, Tuesday, March 21 at 1:23 pm ET**

Hello and Happy March!

We're in the month of March and the moon sign that come here at the last portion of the month is the sign of Aries. This sign is all about charging forth and moving ahead.

Best of all, with its fire energy, the Aries New Moon can help turn up the heat on your wishes with its abundant cosmic energy levels. This month has so much wonderful energy going on in the stars, that your wishes will have an extra big push from this new moon.

Two years ago I wrote about how special the Aries New Moon is and I want to republish this particular issue because this is a Rabbit year and it has a greater push toward growth and renewal.

Besides the Aries New Moon and all its cosmic energy, the New Moon is also the day after the Spring Equinox. Incidentally, the 20<sup>th</sup> is also “International Astrology Day.”

Spring is a time when we move forward in our lives and make new plans.

In light of the astrology holiday, I want to note famed astrologer, Jan Spiller, who wrote "*New Moon Astrology*." Jan was the astrologer who really brought New Moon wishing to light. Her book is a great reference guide that belongs in your library if you're at all interested in astrology.

**One of the topics she covers in her book is about the unique and special power of the Aries moon in particular.**

With its light, and the power of the Spring Equinox behind it, Jan says that this is the **optimal time** to create a *Treasure Map* that focuses on what you'd like to achieve in the year ahead by putting words and pictures that inspire you on a posterboard.

To create your *Treasure Map*, be sure that you complete it within 48 hours of the New Moon in Aries. It's equally important that you must not begin *before* the New Moon. I'd also suggest making sure you add something red on your *Treasure Map* for a little extra dose of energy, and to tap into the Aries fire energy.

As for your monthly written wishes, you can do those as you normally do them, but you can use the *Treasure Map* as a bonus just for the Aries New Moon!

From a feng shui perspective, the Aries New Moon is especially potent because its ruler is Mars and the red planet offers fire energy to Aries. As a fire sign, the wishes you make at this New Moon are automatically activated!

Not only that, but fire is the element of the eyes and heart – and putting those two parts of our body to work helps us to not just create those wishes but *achieve them*.

This month, there are many planets lined up in Aries just waiting to give your wishes and dreams extra energy and help you see your goals and dreams come true.

=====

Take your cues from Mother Nature and put your best leaf (or foot) forward. Step out and make those wishes and take actions from a place of abundance and from your goals and dreams coming to fruition, sure as the flower buds on a tree turn to fruits for us to enjoy!

Put your faith in the Universe. It's using all its energy to bring you your desires, so help it along with your wishes, *Treasure Map* and actions to bear fruit in your life.

**Chi and crackers,**
