MONTHLY FLYING STAR UPDATE

OCTOBER 2023

Hello and welcome to October's energies!

October brings more lovely energies like last month but this has a little extra zing to it! The best part is that the energies of the month for the center will bring a red sequined dress quality that makes the month shimmer and sparkle.

Better still? Next month is even better still for the center sector and the start of the holiday season.

There are lots of good things to talk about, like a combination of 4 sectors with Ho Tu combinations. The center, southwest, east, and southeast will have an extra golden glow about them with the addition of the Ho Tu Combinations that bring profits, prestige, glory, and attainment.

But, let's talk about the biggest concern of the month: the north sector.

This has the worst of all the energies for 2023. If this is your bedroom, it would be a good idea to move out of it if you can and avoid spending time there. Keep this area dark, quiet, and undisturbed or there could be serious injury or afflictions that occur.

But, be on the watch, because **this nasty combination moves to the northwest next month and this could affect the man of the house and cause a serious loss, accident, or illness.** If you have anyone who is a rat, pig, or dog, take extra precautions in the north (rat) this month and in the northwest (pig, dog), next month.

Avoid making major moves or undertaking any risky activities as these sectors could create loss or severe injury. **Try to avoid the north in October and the northwest in November as much as possible.** *Follow the recommendations below carefully.*

Okay, now that's out of the way, let's focus on the good news for October.

This month the northwest has the victory star so if this year has been tough going for the man in your life or if this is your bedroom, you'll see a twinkle and it's the White 1 star shining some good fortune on you.

The south houses and bedrooms all have a bouquet of roses headed their way with a row of glittering energies of the wealth star (SE), love star (S), and blessings star (SW)! *Luck is with you if you have these sectors as your front door, bedroom, living area, or home office.*

The east will host the 7 star this month and that could portend infection for the family.

Covid is on the rise again and the 7 is the respiratory infection star – which could be covid, RSV, flu...and so on. Keep up good hygiene if this is your front door or bedroom.

The west also hosts the 2 illness star. Both the east and west host stars that could bring Covid or flu so take care to protect your health.

Women and men enjoy a much better month with the 6 star moving to the southwest and the 1 star in the northwest. Women will have an opportunity for success and seeing life move more easily and pleasant.

Best of all is the 4/9 combination in the center that will bring social opportunities and some fun to the center sector – so look for opportunities to socialize and spend time with friends whenever you can!

Chi and crackers,
